

## No Show Policy

In order to provide every patient with the best possible health care, C & R Medical has instituted a No Show Policy. This will be effective August 3, 2010. If any patient has THREE no show visits in ONE year they will be released from the practice. A no show visit is when a patient either fails to show up for their appointment, or fails to cancel their appointment 24 hours in advance.

I have read this and understand the policy
